Can you help me with this question? What does it mean to say that a human being is a sexual being?

- A) The Church doesn't talk about human sexuality. This topic is not discussed by the Church.
- B) A human being and a sexual being means exactly the same. It means that God created human beings as male and female.
- C) God created human beings as male and female. He created them for each other and for love. He created them with erotic desires and the ability to experience physical pleasure. He created them to transmit life. . (CCC 2331-2333, 2335, 2392) Being a man or being a woman is very deeply imprinted on the individual human person; it is a different way of feeling, a different way of loving, a different calling with respect to children, another way of believing. Because he intended that they should be there for each other and complement one another in love, made man and women different. That is why man and woman attract each other sexually and intellectually. When a husband and wife express their love for each other in bodily union, their love finds its deepest sensual expression. Just as God is creative in his love, so too man can be creative in love and give life to children.**
